PROJECT OVERVIEW

Seattle City Light will be supporting enhanced cellular and data services in the White Center and Highline areas by attaching two low-power antennas (measuring 2' x 1' x 7") and an equipment cabinet (measuring 17" x 2' x 2') to 35 existing poles throughout the public right-of-way in these neighborhoods.

A map showing the work area is on the back of this flyer.

PROJECT BENEFITS

- This project is an expansion of existing communications networks and the new facilities will increase public safety and enhanced-911 capabilities.
- This work will also improve wireless services to your area allowing for enhanced connectivity and faster 4G service.
- During this project, City Light crews will also have the opportunity to upgrade its infrastructure and replace poles that are in poor condition.

PROJECT IMPACTS

- There are no maintenance power outages planned.
- Some traffic and parking impacts are expected in the immediate work area. Traffic control flaggers will be used where needed on residential streets.
- Crews will be careful to try and maintain access to driveways.

TIMING AND COORDINATION

Construction Start: Construction is anticipated to start in early to mid-April 2017.

Duration: The entire project is expected to last approximately six weeks.

Schedule: Mondays-Fridays from 8:30 a.m. to 4:30 p.m.

Construction is anticipated to start in early to mid-April 2017. This work is scheduled to take approximately six weeks to complete.
